Mostafa Ebrahim Elrefaey
Front-End Developer | React.js

Phone: +201091602084 | Email: mostafa.elrefaey3@gmail.com | Tanta, Egypt

LinkedIn: https://www.linkedin.com/in/mostafa-elrefaey | GitHub: https://www.github.com refaey3

Objective

Results-driven **Front-End Developer** specializing in **React.js, JavaScript, and modern CSS frameworks**. Expertise in building responsive, user-focused web applications with Firebase integration, Git and API handling, delivering optimized experiences that enhance user engagement. Strong understanding of UI/UX principles and OOP with attention to clean, maintainable, and efficient code.

Education Qualification

Bachelor's Degree in Computer Science
TANTA University   **Sep 2022 - Jun 2026**

Experience & Internships

Front End Scholarship Program – (Digital Egypt Pioneer**)**   **Oct 2024 – Apr 2025**

Completed advanced training in React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap.

Developed 5+ responsive and interactive web interfaces, through practical, real-world projects.

Information Technology Institute (ITI), Creativa Tanta   **Oct 2024 – Aug 2025**

Completed 120-hour React-focused training covering Client-Side Technologies, ES6+, and Bootstrap. Built 3+ dynamic web applications with a focus on component-based architecture and state management. Collaborated with a **team of 5 developers** to build scalable front-end projects using git and Agile practices, improving UI performance by 30% through optimization.

Achievements

- **Islam Life – Developed an advanced Islamic platform offering Quran (multiple reciters), prayer times with Adhan, and daily Azkar. Integrated 3+ external APIs, implemented robust error handling, and built a modern, responsive UI that enhanced user experience by 25%.** *(React.js)*
  GitHub: https://github.com/refaey3/IslamLife

- **Chat App – Developed a real-time messaging app featuring Firebase Authentication and Firestore. Integrated user status tracking (online/offline), emoji picker, and toast notifications to enhance interactivity. Optimized data flow for smooth real-time communication.** *(React.js)*
  GitHub: https://github.com/refaey3/ChatApp

- **Day Planner – Designed and developed a task management application with Firebase Authentication. Implemented Local Storage backup for offline persistence and used styled components to ensure full responsiveness across devices.** *(React.js)*
  GitHub: https://github.com/refaey3/DayPlanner

- **Gaming Website – Created an interactive games showcase with smooth animations and responsive transitions, using pure HTML, CSS, and JavaScript. Focused on optimizing load time and maintaining cross-browser compatibility. GitHub: https://github.com/refaey3/GameZone-**
